Time : 09.00AM-6.00PM | Venue : Hotel Residency, Coimbatore

The resounding success of the clinical research workshop that was held in Pune on the 11th February 2016 has set the tempo for some serious researchers. The feedback of this workshop has only encouraged us to move further in this direction and whet the appetite of such amateur researchers to do a more professional job.

To acknowledge this encouragement, the IAPC body has decided to go with a sequel to last year's effort, by organizing yet another workshop in Coimbatore on Clinical Research in Palliative Care.

The one day workshop aims to prune the research-ability of the researchers by a hands on training in research by eminent faculties from various disciplines.

### Faculty for the workshop:

1. Dr. Reena Nair, Consultant Clinical Hematologist, Tata Medical Center, Kolkata.
2. Dr. Medha Joshi, Head, Department of Library Sciences, Tata Memorial Center, Mumbai.
3. Dr. Abhiram M Kasbe, Associate Professor of Community Medicine, TN Medical College, BYL Nair Ch. Hospital, Mumbai.

How to define a research question  
and write a research proposal

Dr. Reena Nair, Consultant Clinical Hematologist,  
Tata Medical Center, Kolkata

How to conduct a literature review  
and referencing styles used in literature

Dr. Medha Joshi, Head, Department of Library Sciences,  
Tata Memorial Center, Mumbai

How to define sample size and identify  
appropriate statistical tool for a study

Dr. Abhiram M Kasbe, Associate Professor of Community Medicine,  
TN Medical College, BYL Nair Ch. Hospital, Mumbai

**Registration is free | Number of seats: 15. | So register soon!**
